Mission Statement

Prospect Housing and Support Services is a charitable organisation working with partners to provide housing, care and support services.

Its mission is to enable people who use our services to realise their potential and to exercise choice and control over their lives.

Supported Living Services

At present our Learning Disabilities team supports 35 adults with learning disabilities. We also offer support to adults with an acquired brain injury.

Our service enables people to live independently in the community in their own homes.

We have a staff team who are all NVQ trained or working towards it.

The cost of this service in 2007/08 is £14.79 per hour.

The service is registered with CSCI who can be contacted on 0845 015 0120.

Supported Living - Key Principles:

- Supported Living is an option for all whatever your housing or support need
- Having a choice about where to live and who to live with
- Having a choice about who your keyworker is, what support is given and by whom
- Support changing as needs change
- Support being given to enable people to live valued lives
- Support at times to suit service users
